Education

B.Tech: Computer Science Engineering — *Lovely Professional University* — **CGPA:8.02** 2023 - 2027

- Relevant coursework: Data Structures & Algorithms, Database Management, Software Engineering, Operating Systems
- Active member of the university's coding club and participated in technical workshops

High School (CBSE) — *Lovely Public Senior Secondary School, New Delhi* — **74.7%** 2022 - 2023

Experience

Exanor (Cybroxide Technologies) Jan 2026 – Present

Software Development Engineer - 1 (SDE-1)

- Architected and delivered a production-grade **cross-platform Store Owner App** (Android, iOS, Desktop) in Flutter & Dart, encompassing 60+ screens across POS, inventory, orders, GST ledger, analytics, staff, supplier, and customer management modules
- Engineered a **feature-rich POS system** with infinite-scroll product catalog, multi-mode payment processing (unpaid, single-bank, split), real-time cart validation, voice search, barcode/QR scanning, dining table selection, and Bluetooth thermal receipt printing
- Integrated the full **Firestore ecosystem** — Crashlytics, Performance Monitoring, Remote Config for dynamic API management, and Cloud Messaging for push notifications — alongside a custom multi-language translation service deployed app-wide
- Built critical operational modules including a **GST Ledger & Reports** engine with financial-year scoping, a **Table Management** system with CustomPainter-based visual layout, PDF invoice generation, and a structured REST API service layer powering all data operations
- Engineered a **Bank Reconciliation pipeline** in Python that parses multi-bank PDF statements (SBI, Axis, ICICI, PNB, Canara, Federal, BOB) using **pdfplumber** and OCR, applying bank-specific table extraction logic to produce validated structured JSON output for financial reconciliation

Training

Algotutor - Competitive Programming — [Certificate](#) July 2025 - Aug 2025

- Completed intensive 2-month training program focused on competitive programming and algorithmic problem-solving
- Mastered advanced data structures and optimization techniques including dynamic programming, greedy algorithms, and divide-and-conquer strategies and number theory
- Developed problem-solving approaches including pattern recognition, time-space complexity analysis, edge case handling, debugging skills, and writing clean optimized code under time constraints

Key Projects

YouTube Comment Analyzer [🔗](#) — [GitHub](#) [🔗](#) — *React.js, TypeScript, Tailwind CSS, Express.js, YouTube Data API v3* Nov 2025

- Full-stack web application that fetches and analyzes YouTube comments with smart categorization into Questions, Jokes, and Discussions
- Implemented advanced Trie data structure for fast prefix-based search with O(m) time complexity
- Built interactive data visualizations using Recharts with YouTube-themed design and glassmorphism effects
- Integrated YouTube Data API v3 for real-time comment fetching with TanStack Query for state management

Recipe Sharing & Cooking Tips Portal [🔗](#) — [GitHub](#) [🔗](#) — *MongoDB, Express.js, React.js, Node.js, JWT, OAuth 2.0* Jan 2025

- Full-stack MERN application for sharing recipes and cooking tips with authentication and authorization
- Implemented secure user authentication using JWT and Google OAuth 2.0 with Passport.js
- Built RESTful APIs with Express.js for recipe management, user profiles, and password management
- Developed responsive frontend with React.js, featuring smooth animations using GSAP and Framer Motion

Technologies

Languages: C/C++, Java, Python, JavaScript, TypeScript, Dart — **Mobile:** Flutter (Android, iOS, Desktop) — **Frontend:** HTML5, CSS3, React.js, Next.js, Tailwind CSS — **Backend:** Node.js, Express.js, Django, PHP — **Databases:** MongoDB, PostgreSQL — **Tools:** Git, Firebase, Linux, Figma

Languages & Skills

Languages: English (Read, Write and Speak), Hindi (Read, Write and Speak), Odia (Speak)

Soft Skills: Leadership, Team Management, Communication, Problem-solving, Critical Thinking, Adaptability, Time Management

Competitive Programming

ICPC-2025 (Institute Topper) — **LeetCode** [🔗](#): Rating 1674, Top 15%, 365 Days Badge, 593 problems solved — **CodeForces** [🔗](#): Rating 1010 (Pupil), 84 problems solved — **CodeChef** [🔗](#): Rating 1271, 7 problems solved

Key Certifications & Achievements

Meta: [Front-End Development](#) [🔗](#) — **Google:** [Computer Networking](#) [🔗](#) — **Udemy:** [C++ Programming](#) [🔗](#), [Leadership Mastery](#) [🔗](#) — **Achievements:** Inspire Manak Award — National Innovation Award for Smart-Safety Helmet Design (INR 10,000 prize) — State-level Badminton Player — Musical Degree in Guitar
